LSE AND LSE IDEAS

The London School of Economics and Political Science (LSE) studies the social sciences in their broadest sense, with an academic profile spanning a wide range of disciplines, from economics, politics, history and law, to sociology, information systems and accounting and finance. LSE IDEAS is an IGA Centre that acts as the School's foreign policy think tank. Through sustained engagement with policymakers and opinion-formers, IDEAS provides a forum that informs policy debate and connects academic research with the practice of diplomacy and strategy. IDEAS hosts interdisciplinary research projects, produces working papers and reports, holds public and off-the-record events, and delivers cutting-edge executive training programmes for government, business and third-sector organisations.

STIFTUNG MERCATOR

Stiftung Mercator is a private and independent foundation. Through its work it strives for a society characterised by openness to the world, solidarity and equal opportunities. In this context it concentrates on strengthening Europe; increasing the educational success of disadvantaged children and young people, especially those of migrant origin; driving forward climate change mitigation and promoting science and the humanities. Stiftung Mercator symbolises the connection between academic expertise and practical project experience. As one of Germany's leading foundations, it is active both nationally and internationally. Stiftung Mercator feels a strong sense of loyalty to the Ruhr region, the home of the founding family and the foundation's headquarter.
